

**P: 1300 794 555**

To comply with Aust. Standards a mailbox should be a minimum of 330mm x 240mm in either a Landscape or Portrait style. The mailslot should be no wider than 30mm.

For mailboxes installed in a harsh enviroment, i.e. subject to salt spray/mist, 316 stainless is recommended.

This item is being specially manufactured and may take some time. Please use this drawing to make allowances in your construction to retrofit this item if necessary. To avoid damage to this product it is recommended to fit after construction or at time of rendering.

## Stainless Steel needs some loving care!

We recommend Nanocoat 2:1 for protection against tea staining and the elements.
